

EarthWise Technologies, Inc.

Oak Wood  
Model 1500WO  
Heats up to 1000 sq ft  
Suggested Retail: \$679  
Price: \_\_\_\_\_

Model 1500WO as shown

Tuscan Walnut Wood  
Model 1500WT  
Heats up to 1000 sq ft  
Suggested Retail: \$679  
Price: \_\_\_\_\_

Model 1500WT as shown

Cherry Wood  
Model 1500WC  
Heats up to 1000 sq ft  
Suggested Retail: \$679  
Price: \_\_\_\_\_

Model 1500WC as shown

Black Plastic w/ Faux Wood Trim  
Model 1500P  
Heats up to 1000 sq ft  
Suggested Retail: \$599  
Price: \_\_\_\_\_

Model 1500P as shown

*Standard Product Features*

- **Proprietary Quartz Infrared Quick-Change Bulb** with ceramic receptors (patents pending). CZ Infrared™'s bulb life has been enhanced to a life of 20,000 hours.
- **Patented Infrared Heat Exchanger.**
- **Full Function Remote**, in credit card-sized style
- **Patented Vent System** to ensure reliability.
- **Accurate, All Electronic Comfort Control Thermostat**
- **Easily Serviceable**, eliminating heater down-time.
- **Proven Reliability.** All components have been tested to meet or exceed TUV-US safety guidelines.
- **Superior, attractive styling** in a sturdy, well-built cabinet.

CZ Infrared™ Quartz Infrared Heaters. *Live in Comfort.*

*Introducing the most environmentally safe and energy efficient heating system on the market today - CZ Infrared™.*

### Why choose CZ Infrared™ as a supplemental heat source?

- **Economical:** Up to 50% savings in energy costs over other heating sources. Your CZ Infrared™ Heater can pay for itself in as little as two months.
- **Therapeutic:** Far infrared radiant heat provides health benefits not obtainable from other heat sources.
- **Advanced Technology:** Quiet, energy efficient, reliable operation, proprietary infrared heating elements, advanced electronics and quality construction make CZ Infrared™ Heaters the best value for your money.

*Save Money and  
Improve Health & Comfort  
with CZ Infrared™ —  
The Efficient Heat Source*

### Why Buy an Infrared Heater?

Infrared heat is a naturally occurring form of radiant energy that is more penetrating than conventional heat due to its shorter wavelength. It penetrates and heats objects and bodies directly rather than just heating the air. It is safe for kids & pets, and provides therapeutic, cozy, comfortable heat. Dollar for dollar, the infrared heater can heat an area, faster, more evenly, and more efficiently than any other heat source.

### Attributes of Infrared Heat

**Comfortable** As much as 80% of the energy from an infrared heater is absorbed by the objects in a room, which in turn radiate the absorbed heat back into the room. This is why you feel more comfortable in a room heated with infrared heat than with conventional sources of heat.

**Energy Efficient** Infrared heat waves distribute the heat evenly, regardless of the location of the heater. This process of heating the floor, ceiling, walls and objects in the room can save up to 50% in energy costs. This has been demonstrated in tests and evaluation studies. **See the report at: [www.czinfrared.com](http://www.czinfrared.com)**

**Health Enhancing** The CZ Infrared™ Heater emits infrared heat waves in the therapeutic FAR INFRARED range. Far Infrared heat waves provide many of the health benefits of natural sunlight, without the dangerous effects of UV radiation. Unlike conventional heat sources, when infrared heat penetrates the skin it transforms from light energy to heat energy. Our customers have specifically reported reduced muscle and joint pain and stiffness, as well as improved respiratory function. Far Infrared heat has now found its way into a wide variety of healing modalities, including cancer therapy, with very successful results.

**Clean Air** CZ Infrared™ Heaters clean and condition the air as they heat. Bacteria, viruses, mold and mildew are destroyed as they pass through the revolutionary CZ Infrared™ purification and heating chamber (patented). The electrostatic particulate filter traps dust and other debris. The heater generates negative ions that clean and invigorate the air and provide many health benefits and mood enhancing properties. Humidity is preserved, creating a softer heat that is easier on the skin and respiratory passages. Some models contain gas absorption filters for removing toxic hydrocarbons that are usually present in an indoor home environment.

EarthWise Technologies, Inc. makes no medical claims for its products in treating any medical condition.

### CZ Infrared™ Model 1000 & 1500 Infrared Heater Specifications & Features

#### Wood Models:

**Cabinet:** ¾ ply - Oak, Cherry or Tuscan Walnut finish

**Weight:** Model 1000 - 22lbs / Model 1500 - 36lbs

**Dimensions:** Model 1000 - 15 ½" x 11 ½" x 16" (H,W,D) / Model 1500 - 15 ½" x 15 ½" x 17" (H,W,D)

#### Wood & Plastic Models:

**Power Requirements:** 115 Volt AC, 1000 Watt (Model 1000); 1500 Watt (Model 1500)

**Power Cord:** 6 foot, 14 gauge (Model 1500); 6 foot, 16 gauge (Model 1000)

**Thermostat:** Electronic analog with large number display

**Accuracy:** ±1 degree

**Delayed Start Function:** Can be delayed up to 24 hours

**Safety Cut-Off:** Yes

**Listed Approvals:** TUV-US & International (UL Equivalent)

**Remote Control:** Credit card sized with a large button surface

**Pre-Filter:** Life-time electrostatic

**Cord Storage:** Convenient cord wrap for transport & storage

#### Plastic Models:

**Cabinet:** ABS 94-VO fire retardant plastic - Black with Faux Wood trim

**Weight:** Model 1000 - 18.5lbs / Model 1500 - 23lbs

**Dimensions:** Model 1000 - 14 ½" x 11 ½" x 15 ½" (H,W,D) / Model 1500 - 15" x 14 ½" x 17 ½" (H,W,D)

**Heat Type:** Therapeutic Far-Infrared Heat

**Heat Chamber:** Copper-ion generation panel, heat diffusion coils surrounding the bulbs

**Heating Elements:** Four (4) quartz infrared emitters with a **life expectancy** rated at 20,000 hours

**Lifetime Electrostatic Filter:** Maintains air quality, easily removable for cleaning

**Fan System:** Model 1500: one low rpm laminar flow ball-bearing fan - operates much quieter than conventional fan systems. Model 1000: twin DC 90mm ball-bearing fans - very quiet and eliminates vibration & ELF 60 Hz electro-magnetic emissions caused by AC fan motors.

**Fan Noise Level:** 38 dB—quiet

**Warranty:** Limited 3-Year

### New Features Found Only in CZ Infrared™

CZ Infrared™'s unique heat exchanger incorporates a copper lined, low pressure air flow path which eliminates the need for a high pressure fan. This feature offers quiet, high volume air flow through the unit. This technology eliminates the harmful electromagnetic waves produced by conventional heaters and other quartz infrared heaters.

The infrared emitters in the CZ Infrared™ Heater feature a metal diffusion coil which enhances the efficiency of the system by as much as 14% over other portable infrared heaters. All of our models include:

- Electronic comfort control thermostat, and digital temperature display accurate to ±1°
- Full-function, Credit-Card style remote control
- Delay start feature to use when no one is home

### 3-Year Warranty

All of our CZ Infrared™ Heaters are backed with an exceptional 3-year manufacturer's warranty.

### New Design & Serviceability Features

CZ Infrared™ Heater's new design incorporates serviceability features not found in other portable heaters. In the unlikely event that a component must be replaced, the CZ Infrared™ Heater is designed for complete component replacement in just a few minutes. Parts are always available through our network of sales representatives and distributors.

### Built to Last

Our heaters are a high quality solid-state modular design, packed with many innovative features and built to provide years of dependable service.
